Artwork production, Object planning, Map programming, Audio setup

- C193139 Jigeun Song

Audio setup, Story Planning, Enemy and Player programming, PPT making

Outline

Genre

- Escape the maze
- Battle
- Collecting stories

Synopsis

- Sally is hospitalized after losing her memory in an accident.
- In a long dream, Sally arrives in front of a dark maze and sees an article saying that if she gets out of the maze, she can regain her memory.

Intention

- Making to look back on past memories.
- Making a graphic that looked like a pencil.
(Etc. Omori)

Strong point

- Fresh fun of battle in a 2D maze.
- Sense of accomplishment of collecting memories while clearing the stage.

Object

Main character of the game.
She is a 24-year-old college student and
has lost her memory in an accident.

It is a bug that eats
memories that appear
in Sally's dreams.

It is a piece of Sally's past memory that
can be obtained from Sally's maze in her
dream.

Tutorial

- The player starts in a red position.
- The purple object is Sally's memory piece, and all of them must be collected to clear the stage.
- The black object is enemy, and Sally will battle when she faces it.
- The green position is an escape from the maze and opens when Sally collects all the pieces of memory.
